Relevant conflict:**Organization:****Relationship:****Our Certifying Board defines conflict of interest types as follows:**

Commercial Interest: A “commercial interest” is defined as an entity producing health care goods or services that relates to the topic proposed and or the speaker.

Financial relationships: Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Relationships of the presenter should include financial relationships of a spouse or partner.

Relevant financial relationships: “Relevant financial relationships” are defined as financial relationships in any amount occurring within the past 12 months that create a conflict of interest.
